

fantastic finds

Every room in a home has the potential to be transformed from typical to transcendental. The key lies in the attention to detail, whether it be a single chair or lamp, or an architectural accent, every facet of a room has the possibility for greatness. The following are a few ideas to help homeowners get the most style for their space.

New etches in home design

Aquarius Laser Etching and Design creates custom artistic tile installations for residential environments using laser technology to etch images into stone. The pieces are created for use as everything from murals to backsplashes. Images are created in either black and white or full color, and are etched permanently into marble, granite, travertine, glass, slate and many other substances. The artwork for the tiles must be high resolution and measure 300 dots-per-inch. The average price for these creations is approximately \$100 to \$130 per square-foot, depending on the size of the job. For more information, visit www.aquarius-laser.com.

A spectrum of options

Spectrum West, a subsidiary of Spectrum Ltd., produces high-quality acrylic furniture for those on the edge of modern furniture design. The company prides itself on creating products that are functional and artistic, fun and modern, strong, fluid and beautiful. Featured here is the Lazy Chair, which retails for \$1,550.
